Matric is your one-stop custom cable and mechanical assembly provider. With an ISO 9001, ISO 13485 and AS 9100 certified quality management system, Matric will engineer, test and manufacture quality cable assemblies from micro push-pull connectors to large Harting® assemblies and complex mechanical subassemblies.

Products:

- Custom cable assemblies
- Harsh environment cables assemblies (24-8 AWG)
- Custom cable and wire harnesses
- Mechanical subassemblies
- Control panels/boxes
- Panel wiring and assembly

Custom Over-Mold Capabilities:

- 30-ton, 5-oz. plastic injection mold machine
- Custom mold design
- Variety of modular molds in stock
- PVC, Polypropylene and Santoprene

Specialty Tools and Equipment:

- Automatic/Programmable wire strip & crimping tools
- Automatic/Programmable test equipment
- Continuity & Hipot OmniTester equipment
- Over 250 crimping tools in stock
- Positioners
- Die sets
- Insertion tools
- Extraction tools

Value-Added Services:

- Refurbish and update capabilities
- Dedicated engineering staff
- Certified hand soldering
- Build to IPC-WHMA-A-620
